☞**NOTE CAREFULLY—Changes in classification of trains; 269 daily except Monday.**

FOOT-NOTES.—No. 5 will take siding for No. 2 at Batavia.

Nos. 15 and 220, 17 and 20, 19 and 18, may on their rights meet on double track between Arsenal and Benicia.

West-bound trains are superior to trains of the same class in the opposite direction. (See Rule 81.)

Trains must get clearance card before leaving Benicia or Davis, except No. 2, which may be cleared at Davis by semaphore.

Extra trains may pass, or run ahead of, third class trains without receiving an order to do so.

★ Kobe length 1242 feet.

★ Frog out.

Trains will stop as follows:

★★ Stops Tuesdays and Saturdays during shooting season.

† At Sheep Camp, 1½ miles east of Webster, Train No. 54 on signal Sundays only.

At Joyce, Trains Nos. 14, 18 and 20 on signal.

WESTERN DIVISION: Port Costa and Sacramento.

TOWARD SAN FRANCISCO.

☞ **FOOT-NOTES.—No. 49 will wait at Cornwall until 10:14 a. m. for No. 84.**
No. 142 is superior to No. 143.
No. 146 is superior to No. 145.

☞ **NOTE CAREFULLY—Changes in classification of trains.**
West-bound trains are superior to trains of the same class in the opposite direction (see Rule 81), except as per foot-notes above.
Trains must get clearance card before leaving Tracy.
Extra trains may pass, or run ahead of, third class trains without receiving an order to do so.

Trains will stop as follows:
★ Stop only to leave passengers.
At Nevada Dock, Trains Nos. 145 and 147 on signal.
At Widbero, all passenger trains on signal.

WESTERN DIVISION: Tracy and Mendota.

☞ **NOTE CAREFULLY—Changes in Classification of Trains.**

★ Nos. 247 and 248 may carry passengers.

All trains will approach Tracy yard under full control, prepared to stop if found necessary.

Nos. 35 and 36 will stop on signal at house of Los Banos Gun Club west of Agatha to let off and pick up passengers.

Trains must get clearance card before leaving Tracy or Mendota.

West-bound trains are superior to trains of the same class in the opposite direction. (See Rule 81.)

Extra trains may pass, or run ahead of, third class trains without receiving an order to do so.

☞ **FOOT-NOTES.—See Special Rule, page 24, movement of trains between Oakland Pier and Fruitvale.**

No. 109 will wait at Hayward until 8.44 a. m. for No. 82.

No. 107 will wait at Halvern until 6.41 p. m. for No. 110.

No. 107 will wait at Melrose until 7.10 p. m. for No. 40.

Foot Notes.

No. 278 is superior to No. 277.
No. 280 is superior to No. 279.
No. 106 is superior to No. 105.

⋆ No Train-order Semaphore.

Trains will stop as follows:

† Stop on signal to receive passengers.
At Seminary Park, all passenger trains, except Nos. 38 and 82, on signal.
At South San Leandro, all passenger trains, except Nos. 32, 38 and 82, on signal.
At Cherry, all passenger trains, except Nos. 32, 38 and 82, on signal.

West-bound trains are superior to trains of the same class in the opposite direction (see Rule 81), except as per foot-notes above.
Trains must get clearance card before leaving Oakland Pier or West Oakland.
Extra trains may pass, or run ahead of, third class trains without receiving an order to do so.

☞ **NOTE CAREFULLY**—Changes in classification of trains.

☞ **FOOT-NOTES.**—No. 37 will wait at Eliot until 5.44 p. m. for No. 38.
No. 121 will take siding at French Camp for No. 38.
No. 278 is superior to No. 277.

Trains must get clearance card before leaving Tracy or Lathrop.

Freight Extra leaves Tracy about 2 p. m. Wednesdays and Saturdays for Livermore.

West-bound trains are superior to trains of the same class in the opposite direction (see Rule 81), except as per foot-notes above.

Extra trains may pass, or run ahead of, third class trains, without receiving an order to do so.

Automatic signals are in operation between Tracy and Stockton. (See Page 23, also Rules 38 to 51, inclusive, pages 94 to 97 of Book of Rules.)

Trains will stop as follows:

- * Stop only to leave passengers.
- ‡ Stop on signal daily, except Sunday, to receive passengers.
- At Merienda, No. 87 on signal.
- At Mayborg, No. 87 on signal.
- At Brightside, No. 87 on signal.
- At Verona, Nos. 31, 37, 85 and 87 on signal.
- At Bonita, Nos. 31, 37 and 87 on signal.
- At San Joaquin Bridge, Nos. 37 and 135 on signal.

WESTERN DIVISION: Stockton and Sacramento.

☞ **FOOT-NOTES.—No. 164 is superior to No. 165.**

No. 262 is superior to No. 261.

West-bound trains are superior to trains of the same class in the opposite direction (see Rule 81), except as per foot-notes above.

Trains must get clearance card at South Vallejo when an Operator is on duty.

Extra trains may pass, or run ahead of, third class trains without receiving an order to do so.

Trains will stop as follows:

*Stop only to leave passengers.
At Suscol, Nos. 62, 64, 164 and 168 on signal.
At Middleton, Nos. 62 and 64 on signal.
At Orphans' Home, Nos. 66, 68, 72, 74, 168 and 260 on signal.
☞ Nos. 162 and 166 will leave Cement Works at Napa Junction at 6:30 A. M. and 5:40 P. M. respectively.
No. 164 Sunday will leave Cement Works 4:58 P. M.

☞FOOT-NOTE.—No. 294 is superior to No. 293.

West-bound trains (or trains running from Santa Rosa to Napa Junction) are superior to trains of the same class in the opposite direction (see Rule 81), except as per foot-note above.

· Trains must get clearance card at Santa Rosa when an Operator is on duty.

Extra trains may pass, or run ahead of, third class trains without receiving an order to do so.

FOOT-NOTE—No. 533 daily except Monday.

NOTE CAREFULLY.—Between Ramal and Buchli a manual block system is in operation from 7 a. m. to 7 p. m. (See Manual Block System Rules, page 97, Book of Rules.)

Operators at such stations when on duty will register all trains, and hand inferior trains "Register Check" of superior trains which have arrived, otherwise trainmen must register and check same.

Trains will stop as follows:

*Stop only to leave passengers.

Tule Vista Nos. 65, 66, 67 and 68 during hunting season will stop on signal.

At Felice—Nos. 65, 66, 67 and 68 on signal.

FLAGGING.

Attention is called to information shown in vertical columns on face of this time-table to right and left of station names, denoting flagging distances as per Rule 99. These distances must be strictly observed.

SPECIAL RULES.

Automatic Block Signals are in service between Oakland Pier and Port Costa; also Benicia and Arsenal; Tracy and Stockton. See Rules 38 to 51, inclusive, pages 94 to 97, and be governed accordingly. Trainmen and Enginemen must use extreme care in lining up properly all switches leading into main track, or automatic signals will stand at "Stop," causing unnecessary delay to trains.

Between Ramal and Buchli and between Arsenal and Mikon, a Manual Block System is in operation. (See Manual Block System Rules, page 97, revised edition of Book of Rules, and be governed accordingly).

Referring to Rule 40, Page 94, Standard Rules. On single track, trains will wait three minutes before following flagman, under conditions outlined in said rule. On double track, under similar conditions, trains must come to a full stop and may then proceed cautiously, moving only under control—this meaning ability to stop within range of vision—flagman being invariably sent ahead in stormy or foggy weather.

Block Signal rules provide that block signals do not affect the rights of a train under the time table or train rules, nor dispense with the use or observance of other signals whenever they may be required.

Trainmen must not depend upon the block system to protect their trains, but whenever necessary must see that the train is protected by flag, as per Rule 99, page 18.

Semaphore signals, interlocked with the drawbridges at such points, having been put up at San Joaquin River between Minard and Lathrop, Pacheco Slough at Avon and Cordelia Slough at Cygnus, trains approaching these drawbridges from either direction and finding the semaphores at "clear," may pass over the drawbridges without coming to a full stop, speed, however, to be reduced so as not to exceed fifteen miles per hour. If signals are found at danger, trains must be brought to a full stop, and crew be governed by Rule 40 (page 94).

"Referring to Rule 12 (concerning distant signals) on page 90 in books of Rules and Regulations: Distant signals are also used for indicating position of obscure switches. When a distant switch signal stands at 'Caution,' it indicates that switch in advance of it is open, and that trains must be brought to a stop before reaching the open switch. When it stands at 'Safety,' it indicates that switch in advance of it is closed, and that trains may proceed."

Trains must use caution in passing a train receiving or discharging passengers at a station and must not pass between it and the platform at which the passengers are being received or discharged. This rule must be strictly observed between East Oakland and Fruitvale.

In addition to junctions and terminals, 16th Street and First Street (Oakland), Livermore, Montpellier, Madera, Martinez, Benicia, Napa, Ramal, Buchli and Creston will be registering stations. **Except Branch trains, only,** will be required to register at Suisun, Elmira, Galt and Concord. Operators will register for PASSENGER TRAINS not scheduled to stop at their stations. Especially is this necessary at Buchli and Ramal when an operator is on duty. See special rule, page 24, San Francisco and San Jose, in reference to registering at Fruitvale.

Enginemen, before leaving any registering station, will require from the Conductor a check on proper blank showing the numbers of all superior trains, if any, together with time of arrival or of departure, and must assure themselves that no train affecting their rights is omitted therefrom.

Passenger trains must not be run from the instant of their departure from any station to the instant of their arrival at the next station in less time than given in the column headed "*Minimum running time between Stations for passenger trains.*"

Freight trains must not be run from the instant of departure from any station to the instant of their arrival at the next station in less time than given in the column headed "*Minimum running time between Stations for freight trains.*"

Standard clocks are located at Oakland Pier, West Oakland (telegraph office), San Jose, Tracy, Mendota, Fresno, Stockton, Lodi, Galt, Sacramento, Berenda, South Vallejo, Suisun and Elmira.

OAKLAND PIER INTERLOCKING SYSTEM.

The following signals in the Oakland Interlocking System are assigned to special routes as noted. All other signals in the system govern tracks in accordance with Standard Rules. (See page 107.)

The two signal bridges east of Oakland Pier depot will be known as Bridge No. 1 and No. 2. Bridge No. 1 is west of Tower No. 1 and Bridge No. 2 is east of it. The signal posts on the bridges are placed over the right-hand rail of the track upon which trains approach.

All trains starting out of Oakland Pier will be governed by dwarf signal placed on right-hand side of track upon which train stands, which signal will be good only to Signal Bridge No. 1, from which point trains will get signal good only to Bridge No. 2, as follows:

Post over track No. 1 carries signals 35 and 37.
Signal 35 into track No. 2.
Signal No. 37 across tracks 2 and 3 into track 4.
Post over track No. 2 carries signals 39 and 41.
Signal 39 out track 2.
Signal 41 across track 3 and into track 4.
Post over track No. 3 carries signals 43 and 45.
Signal 43 out track 3.
Signal 45 into track 4.
Post over track No. 4 carries signals 47 and 49.
Signal 47 out track 4.
Short arm switching signal 49 to tracks 3 or 2.

East-bound Signal Bridge No. 2 as below:
Post over track No. 1 carries signal No. 51.
Short arm switching signal 51 out track 1 or across tracks 2 and 3 and into track 4.
Post over track No. 2 carries signals 53 and 55.
Signal 53 out track 2.
Short arm switching signal 55 into track 1.
Post over track No. 3 carries signals 57 and 59.
Signal 57 into track 2.
Short arm switching signal 59 into track 1.
Post over track No. 4 carries signals 61 and 63.
Signal 61 out on track 4.
Signal 63 across track 3 and out on track 2.

West-bound trains coming into Oakland Pier on tracks 1 and 3 will be governed by signals on 4-arm bracket pole just east of wharf cross-over. These signals are good only to bridge No. 2 and enginemen will, under no circumstances, run by them when at danger without first getting a hand signal from some one in authority on the ground close enough to them to be certain of no misunderstanding.

Right-hand post carries signals 30 and 32.
Signal 30 in on track 1.
Signal 32 in on tracks 2, 3 or 4.

Left-hand post carries signals 34 and 36.
Signal 34 in on track 3.
Signal 36 in on track 4, or into Long Wharf track, or into and west on track 1, or into track 1 and across into track 2.

West-bound signals on Bridge No. 2 are good only to Bridge No. 1, as below:
Post over track No. 1 carries signals 18 and 18½.
Signal 18 in on track 1.
Signal 18½ in on track 2 or 3.
Post over track No. 2 carries signal 20.
Signal 20 in on track 2.
Post over track No. 3 carries signals 22 and 24.
Signal 22 in on track 3.
Signal 24 in on track 2 or 1.
Post over track No. 4 carries signals 26 and 28.
Signal 26 in on track 4.
Short arm switching signal 28 in on tracks 3, 2 or 1.

West-bound signals on Bridge No. 1, as below:
Post over track No. 1 carries signal 8.
Signal 8 in on tracks 2, 3, 4 or 5.
Post over track No. 2 carries signal 10.
Signal 10 in on tracks 6, 7 or 8.
Post over track No. 3 carries signals 12 and 12½.
Signal 12 in on track 9, 10, 11 or 12.
Signal 12½ in on track 13, 14 or 15.
Post over track No. 4 carries signals 14 and 16.
Signal 14 in on tracks 13, 14 or 15.
Short arm switching signal 16 in on storage tracks.

Trains coming from shop track will be governed by dwarf signals Nos. 38 and 40, as below:
Signal 38 across tracks 4, 3, 2 and 1 and in on wharf trestle.
Signal 40 across tracks 4, 3 and 2 and in on track 1, or in on track 4.

When signals are inoperative and hand signals are used to move trains over tracks controlled by interlocking system, no such signal should be given or obeyed unless green flag or green lantern is used by Towermen.

Whenever large whistle on top of Tower No. 1 is sounded, all engines or trains, moving within district controlled by this tower, shall be at once brought to a full stop and not again moved until signal is given by proper authority from the tower.

SAN FRANCISCO AND PORT COSTA.

(See top of page for Automatic Block Limits.)

The limits of Oakland Yard will extend from west end of trestle east of Alice Street, on Niles Line and the sign board east of draw-bridge on Alameda Line, through West Oakland Yard to Oakland Wharf and to 16th Street Station on Port Costa Line.

Approaching any switches within the limits of Oakland Yard, trains of this line will, when necessary, give whistle signal as per Standard Rule 14, page 12, to the switchman.

Trains going to West Oakland, through the freight track in Cedar Street, will be careful not to delay or block local or main line passenger trains; and when approaching 16th Street station, if ready to go through without stopping, will give four short blasts of the whistle, thus, — — — —

The freight track in Cedar Street, between West Oakland and 16th Street stations, is controlled by signals from Towers 2 and 4 of the Block System. Trains for West Oakland, arriving at 16th Street, may leave that station regardless of their schedule time, or of opposing trains, provided they get proper signals giving them a clear track; and trains may leave West Oakland regardless of arrival of opposing trains, provided they get proper signal giving them a clear track. When the signals will not work and hand signals are necessarily given, trains must be run in accordance with time and rights of Time Table.

Switch engines doing work on Cedar Street at Oil Works must obtain permission from Towerman, Tower 4, 16th Street, Oakland, before doing such work.

Trains must not run faster than 10 miles per hour in crossing University Avenue and Delaware Street, at West Berkeley station.

By ordinance, the rate of speed of engines or cars passing over, along or upon any of the public streets or highways in the city of Oakland is limited to twenty-two miles an hour. It will therefore be necessary to slow down to that speed between the Northern Switch and the west end of the fill near Dalton's Foundry, on Cedar Street; also when running through Cedar Street, between Dalton's Foundry and Atlantic Street.

West-bound main-line trains coming into 16th Street must not pass either Berkeley local train when west of the east switch of the passing track, nor must enter the station at 16th Street while either Berkeley train is there.

On double track between 16th Street, Oakland, and Port Costa, trains will use the right-hand track when moving east or west as the case may be.

The switches at 16th Street, Oakland, and end of double track east of Port Costa, will be operated and controlled by Towermen. Enginemen and trainmen must familiarize themselves with the signals connected therewith, and be governed accordingly.

Following rules will be applicable on Double Track between Oakland and Port Costa:

*"**All freight trains** will move with the current of traffic without reference to class of train, being governed by automatic signals. Such freight trains must, however, clear the time of passenger trains moving in the same direction; telegraph offices at stations named on pages 2 and 3 will be maintained without semaphores, orders on Form 19 to be issued at such stations when desirable."*

"A regular train may pass and run ahead of a train of the same class, or its sections.

"A section may pass or run ahead of another section of the same train, first exchanging orders, signals and numbers with the section to be passed.

"An extra train may pass and run ahead of extra and third class trains or their sections.

" Work extras must be assigned working limits. Within these limits such trains must move with the current of traffic, unless train orders otherwise direct."

SPECIAL RULES—Continued.

PORT COSTA YARD LIMITS.

The Junction Double Track Switch east of Port Costa is connected with **interlocking signals** and will be controlled by towermen. Enginemen and trainmen must familiarize themselves with Signals connected therewith and be governed accordingly. See Rules 110 to 130, pages 106 to 109 inclusive.

The limits of Port Costa Yard will extend from the sign board near Eckleys to the sign board east of Nevada Dock. Within these limits extra trains must run with great care. Switches on long siding, or working track, which extends from Vallejo Junction to the boat tracks at Port Costa, must always be left closed on the siding.

The working track between Port Costa and Crockett may be used from seven (7) P. M. until six (6) A. M. for the west-bound movement of freight trains. *Trainmen of such trains must protect themselves by flag, as per Rule 99, when pulling out on main line.* Speed of freight trains using working track as above must not exceed fifteen (15) miles per hour, and crews of such trains must be in readiness at all times to protect rear end.

PORT COSTA AND SACRAMENTO.

(See page 23 for Manual Block Limits.

The limits of Benicia Yard will extend to and include House track, Army Point.

Tracks between Benicia and Arsenal will be used as **double track main line.**

Trains using the right-hand track when moving east or west as case may be.

At Benicia, trains will be governed by special rules issued to facilitate transfer on Benicia Ferry.

Switch at east end of double track at Arsenal will stand normally for the right-hand or westbound track, and if used must be restored to such position.

The limits of Sacramento Yard will extend to and include Washington Spur. Within the limits of the Yard all trains and light engines must be handled with care and kept under full control, and the bell must be rung constantly. Through obscure portions of yard such trains or engines must not pass the switchtender's station at Sixth Street, Fourth Street, and east end of Sacramento River Bridge without receiving signals to ''proceed.''

Under no circumstances must the speed of any train exceed six miles per hour over Sacramento River Bridge. This applies to the whole length of the train.

''Semaphore signal interlocked with drawbridge over Sacramento River, having been installed at west end of the structure, east-bound trains, finding semaphore blade of such automatic signal at clear, may cross the bridge without coming to full stop; speed, however, to be regulated as above.''

TRACY AND MENDOTA.

The junction switches at Tracy, after being used, must be set for the main track Tracy and Lathrop line.

All trains must be brought fully under control before passing over railroad crossing at Lyoth, notwithstanding flagmen may give clear signal, either by flag or semaphore.

Speed over the crossing must not, in any case, exceed 12 miles per hour.

STOCKTON, MILTON AND MERCED.

Speed of trains must be reduced to fifteen (15) miles per hour when passing over bridge at Tuolumne River (near Waterford). This applies to the whole length of the train.

LATHROP AND MERCED.

The junction switches at Lathrop, after being used, must be set for the main track Niles and Stockton line.

All trains must be brought fully under control before passing over railroad crossing about 1 mile south of Lathrop, notwithstanding flagman may give clear signal, either by flag or semaphore.

Speed over the crossing must not, in any case, exceed 12 miles per hour.

Speed of trains within the limits of Modesto and Merced should be reduced to fifteen (15) miles per hour.

MERCED, RAYMOND AND FRESNO.

By Ordinance, the rate of speed of engines or trains is limited to eight (8) miles per hour while running in the city limits of Fresno; also, no crossing may be blocked longer than five (5) minutes at a time.

PORT COSTA, SAN RAMON AND TRACY.

The speed of trains within the limits of Martinez, as designated by standard boards, must not exceed twenty (20) miles per hour.

The junction switches at Tracy, after being used, must be set for the main track Tracy and Lathrop lines.

SAN FRANCISCO AND SAN JOSE.

On double track, between Oakland Pier and Fruitvale, via First Street, all trains will use the right-hand track when moving east or west. Suburban trains on the Seventh Street line will use main-line double track between East Oakland and Fruitvale. Movement of all trains between Oakland Pier and Fruitvale, on double track, via First Street, with current of traffic, will be governed by automatic signals, and will be irrespective of Time Table and Train Order rights, except that freight and extra trains must use every endeavor to avoid delay in movement of Passenger trains; suburban trains will have preference over all others. Junction switch at east end Seventh Street system, East Oakland, and junction switch at east end of double track at Fruitvale, will be handled by switch tenders, whose signals must be respected. Trains must approach these junction switches under control and call for signal by switch tenders before proceeding. Main line trains, via Niles, will give two short, one long and one short blast of the whistle—thus – – ——— –, as a signal to switch tender. Alameda line suburban trains will give one short, one long and one short blast of whistle—thus – ——— –, as a signal to switch tender. Oakland (Seventh St.) trains will observe Rule 14, page 12; 324, page 60—when necessary.

At Fruitvale the junction double-track switch will stand normally for east-bound track going off double track, and will have to be opened and closed for west-bound trains.

A Register will be kept in switch house nearest junction of double track, Fruitvale, and ALL WEST-BOUND TRAINS WILL register or leave registering Ticket Form 2588 for switch-tender to Register.

Between Oakland Pier and Fruitvale stations, if a local train is about to come to a stop or has done so at *any* station, the speed of main-line trains must be reduced in passing such station, so that there will be no danger of hurting any passenger from the local train; come to a full stop if necessary.

The limits of Oakland Yard will extend from west end of trestle east of Alice Street, on Niles Line and the sign board east of draw-bridge on Alameda Line, through West Oakland Yard to Oakland Wharf and to 16th Street Station on Port Costa Line.

Trains from Oakland Pier or trains leaving Oakland Yard via First Street will be governed by interlocking signals from Tower 7, located at First and Kirkham streets.

West bound two-arm " home" signal near the foot of Adeline Street, controlled from tower: Upper arm on this pole good for west-bound trains westerly or west-bound main lines; lower signal good for west-bound trains westerly across links into main Freight Yard. East-bound trains on east-bound main line governed by one arm " home" signal almost opposite the tower. Derailing switches in both east and west-bound main line tracks fifty feet beyond the signal poles. All other train movements at this tower to be controlled by dwarf signals.

East-bound trains leaving Oakland Yard by way of the main freight lead on First Street, must respect, and be governed by, pot signal near foot of Myrtle Street in passing from freight lead to east-bound main line track.

By ordinance, the rate of speed of engines or cars passing over, along or upon any of the public streets or highways in the city of Oakland is limited to twenty-two miles an hour. It will therefore be necessary to slow down to that speed when running between Market and Alice streets on First Street, and when crossing Park Avenue at Twenty-third Avenue local station, the speed must be reduced to eight (8) miles an hour.

Trains should endeavor to avoid meeting on First Street between Franklin and Washington streets. If such meet is unavoidable, the higher-class train, or the west-bound train of the same class, shall have the preference, and the other must be brought to a stand until its engine has been passed by the rear end of the opposing train.

To conform to ordinance, speed of all trains or engines within the city limits of San Jose must not exceed six (6) miles per hour. Movement of trains between San Jose and Niles, while entering or leaving San Jose yard, **will be governed by inter-locked semaphore signals** controlled from tower near Third Street.

NILES AND STOCKTON.

Between the boards designating the limits of the city of Stockton, the speed of all trains must not exceed eight (8) miles per hour. Between the boards designating the ''**Yard Limits**'' at Stockton all extra trains or engines must run with great care, expecting to find main track in use.

All trains must be brought fully under control before passing over railroad crossing east of French Camp, notwithstanding flagmen may give clear signal, either by flag or semaphore, when the engine whistles for the crossing.

Speed over the crossing must not, in any case, exceed 12 miles per hour.

Interlocking signals have been placed to govern the crossing at Sacramento and Taylor streets in Stockton, of the tracks of the San Francisco & San Joaquin Valley R'y and this company. Trainmen and enginemen must carefully observe the position of the signals and be governed accordingly.

The junction switches at Tracy, after being used, must be set for the main track Tracy and Lathrop line.

The junction switches at Lathrop, after being used, must be set for the main track Tracy and Stockton lines.

STOCKTON, WOODBRIDGE, VALLEY SPRING AND SACRAMENTO.

The "LONG SIDING" extending from South St., Stockton, to El Pinal may be used as second track for main line train movement under special orders

Between Asylum Switch and South St. yard engines may use this siding as a working track, and train movement thereon must be governed accordingly.

Outside of such limits all trains and engines, including yard engines, must be moved only under full control.

Switch at junction of lines Lodi and Woodbridge, after being used, must be set normally for main track, Sacramento and Stockton line.

Junction switch, Valley Spring line, in Lodi passing track must be set normally for passing track. Trains using such track must exercise care to avoid delaying Lodi and Valley Spring Branch trains.

The limits of Sacramento Yard extend to and include the switch at Homestead station on Western Division and from Elvas to Sacramento on the Sacramento Division. Within the limits of the yard all trains and light engines must be handled with care and kept under full control and the bell rung constantly. Through obscure portions of yard such trains or engines must not pass the switchtender's station at Sixth Street, Fourth Street, and east end of Sacramento River Bridge without receiving signals to ''proceed.''

On the double track between Sacramento and Elvas all trains must use the right hand track. Switches at Elvas will be operated and controlled by Towerman. The "Y" switches nearest to Ben Ali and Brighton, respectively, are controlled by Interlocking Signals indicated by semaphore arms located on poles 50 feet in advance of switch. When upper arm stands at "Proceed" the switches are set for Main track to Sacramento. When lower arm stands at "Proceed" switches are set for the "Y." Enginemen and Trainmen must familiarize themselves with the signals and be governed accordingly. All trains must approach Elvas cautiously and under full control. Trains from Brighton must not pass clearance point of Sacramento end of Elvas siding until signal allowing movement upon double track has been given by towerman, Trains to or from Brighton, will sound two long and three short blasts of the whistle, ——— ——— – – –, as a signal for the Towerman to set tbe switches accordingly.

Movement of all trains between Twelfth Street, Sacramento, and Elvas, will be governed by automatic block signals irrespective of time table and train order rights. Under the conditions described in Automatic Block System Rule No. 40, trains must come to a full stop and may then proceed cautiously, moving only under control with ability to stop within range of vision, flagman being invariably sent ahead in stormy or foggy weather. No train, however, should pass signal No. 5 governing westbound main line near Twenty-First Street should such signal be found at danger until signal has changed to safety, or hand-signal to proceed been given by switch tender.

Towerman at Elvas Tower will keep Train Register of Western Division trains for information in case of doubt as to movement of superior trains.

See current Sacramento Division Time Table for further Special Instructions.

Junction switch at Brighton west of the depot must be set normally for Brighton and Elvas line. Trains via Homestead will open and close this switch. All trains running on the Galt to Sacramento line via Homestead will reduce speed to fifteen miles per hour in passing through either the east or west junction switches at Brighton.

The Switch leading from Placerville to Homestead Line at Brighton must be set normally for Main track, Sacramento and Galt via Homestead.

Trains must approach crossing, Placerville and Elvas Line at Brighton, under control so as to avoid striking trains of either line which may be using same.

SPECIAL RULES—Continued.

SOUTH VALLEJO, SUISUN AND CALISTOGA.

The junction switches at Napa Junction, after being used, must be set for the main track Napa Branch.

By ordinance, it has been made unlawful for an engine, whether alone or attached to a car or cars, to run, be drawn or propelled on any track within the corporate limits of the city of Napa at a rate of speed greater than six (6) miles per hour, or to move an engine at any speed within the corporate limits of the city unless the bell on said engine be kept ringing the whole time said engine is in motion. You will, therefore, be governed accordingly.

By ordinance, it is required that the speed of trains and engines be reduced to twelve (12) miles an hour between Charter Oak Avenue and Fulton Lane in the town of St. Helena.

NAPA JUNCTION AND SANTA ROSA.

The junction switches at Napa Junction, after being used, must be set for the main track Napa Branch.

The junction switches at Ramal and Buchli will be set normally for the San Francisco & Napa Railway. Movement of trains between these stations will be in accordance with the current time-table and Rules of the Western Division, Southern Pacific Co. Station semaphores will stand normally at "Stop." If semaphore is cleared on signal, San Francisco & Napa trains may pass through switches without stopping. Trains of Western Division will stop and sound two long and three short blasts of the whistle, thus ▬▬ ▬▬ ▬ ▬ ▬, as a signal to switch-tender to set switches accordingly. If switch-tender is not on duty trainmen must open and close switches, restoring them as above indicated.

ELMIRA AND RUMSEY.

All trains and engines on Clear Lake Branch, running from San Francisco must come to a full stop at the stop board between Wolfskill and Winters, and cross Putah Creek Bridge at a speed not exceeding six (6) miles per hour. This bridge is also used for a public highway.

Trains must not exceed ten (10) miles per hour while running in the main street in Capay.

★ Use rating Oakland to Mendota for freight trains between Oakland and Port Costa.

† Trains with over 60% engine rating will be given switch engine helper out of Oakland yard.

★★ For freight trains on Santa Rosa Branch use rating Niles to Tracy. For freight trains on Calistoga Branch use rating San Jose to Oakland.

TONNAGE RATING—Continued.

To find maximum load that can be hauled at ten miles per hour on ruling grade between any two stations, multiply rating for through freight by figures in column opposite station desired, east or west, as the case may be. "F" denotes full number cars allowed, which must not be exceeded in any case.
